

EndpointGuard

Browser & Online Security Hardening Report

Sample client deliverable for browser safety, privacy, extension hygiene, and safer everyday browsing.

Scope

- Tracking prevention and privacy settings review
- Safe browsing and malicious content protection check
- Secure DNS guidance where available
- Extension cleanup and risky add-on review
- Plain-English next steps for the client

Outcome

A cleaner browser setup with fewer trackers, better protection against common web threats, and practical guidance.

Disclaimer

This sample report is for demonstration only. Browser hardening reduces risk but cannot eliminate all online threats.
